Colleagues receive reusable items upon arrival: a water bottle and a pen during their first three months.

Each colleague undergoes a 1-hour session on Group's sustainability commitments and goals to grasp the significance of this important topic and their role within it.

New colleagues undergo departmental training facilitated by a training manager and departmental trainer to learn specific sustainable practices. - Clean the World diverts soap bars and bulk containers from landfills and recycles the collected soap into new bars and the containers to other materials.
- By doing so, Clean the World helps reduce pollution, save water and decrease the carbon footprint of thousands of hotels globally.
- The new soap bars are donated to NGOs around the world, therefore helping to improve the lives of women, children, and communities.
- At Mandarin Oriental, Munich we are proud to be part of this process and contribute to a circular movement.
