

ABG ASPHALT PAVERS AND SCREEDS

WEAR PARTS AND SERVICE KITS

MAINTENANCE MADE EASY

ENHANCE YOUR PERFORMANCE
WITH GENUINE AMMANN AND ABG SPARE PARTS

AMMANN

KEEP PAVERS PRODUCTIVE WITH ABG WEAR PARTS AND SERVICE KITS

Take the guesswork out of your maintenance with service kits for ABG pavers and screeds. The kits promote timely replacement of parts, preventing problems before they arise. Each kit is packed with all parts and accessories for your convenience.

ONE KIT, MANY ADVANTAGES

Service kits bring a proactive approach that significantly impacts uptime. Existing parts might look fine at a glance but can actually be weak links that stress the components around them. These unnoticed failing parts can also strain and prematurely wear newly installed replacements.

ABG wear parts and service kits ensure replacements in a timely manner, maximising performance and parts lifetime. The kits for ABG pavers and screeds have many additional advantages when it's time to carry out maintenance, repairs or overhauls.

TIME SAVINGS

The kits are comprised of genuine ABG parts and accessories, which guarantee perfect fits. This reduces the time needed for installation and boosts uptime on the jobsite.

EXTENDED COMPONENT LIFE

The parts utilise only OEM quality steel for exceptional abrasion resistance and durability.

HIGH-QUALITY PAVING

Genuine ABG parts optimise heat distribution and minimise wear across the screed, resulting in the high-quality finishes required on today's jobsites.

PRECISION-MADE PARTS

Kits ensure the latest OEM engineered design and tolerances are built into the screed. This is essential, as tolerances today can be as small as 2 mm.

GENUINE TAMPER BARS

Hardened tamper bars enable compaction quality, durability and paving efficiency.

WIDE AVAILABILITY

The following types of service kits are available for all ABG paver models, both tracked and wheeled:

- Service kits
- Conveyor drive kits
- Conveyor kits
- Auger drive kits
- Auger shaft kits
- Auger flight kits
- Rubber track pad kits
- Screed wear kits

COST ADVANTAGE

When ordering kits there is a price advantage compared to ordering the parts separately.

For more information on ABG wear parts and service kits, please contact your local Dealer.
