

AMMANN

My coloring book:

WELCOME TO THE AMMANN COLORING BOOK!

Dear little builders! In this book, you can find lots of great illustrations of Ammann's impressive plants and machinery. Grab your crayons and bring road construction to life with your colors!

Tips for coloring:

- Use bright colors to design your own construction site.
- Paint the sky blue, the road grey, or use your favorite colors.
- You can also add patterns or stickers!

Fun fact: Did you know that Ammann rollers are responsible to make the roads super smooth so that cars can drive safely?

Have fun coloring!
